|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|

Active and Global Citizenship; 2 x 3hours (6 hours) This course inspires and supports classroom practitioners (including HLTAs) in the practical delivery of global learning within the curriculum. Increase their capability to engage reluctant learners with the curriculum using global learning /development education as an entry point through literacy, numeracy and active citizenship. Cost; £90 ecredits pp or [£400 ecredits for 1 school](#). Price on application for a cluster of schools.

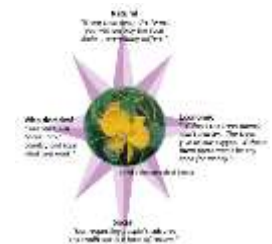

Curriculum & subject support – learning from Kenya with Makutano Junction; 4 hours. This course aims to support excellence in teaching and learning through subjects, by increasing global learning delivery. It enables teachers to consider using popular media in the classroom as a tool to engage & inspire pupils to learn, and to identify methodology and challenging stimuli for critical and reflective learning. Cost; [£500 ecredits for 1 school](#). Price on application for a cluster of schools

Distant Localities; 2 hrs. This course helps to generate an appreciation of the links and connections (interdependences) between the lives of others and children’s own lives. Learning what life is like for others, brings an increased understanding of how the world is a global community and what it means to be a citizen within it. Useful for those with a school partnership, a specific country focus available on request. Cost; £50 ecredits per person or [£250 ecredits for 1 school](#). Price on application for a cluster of schools

World Outdoors; 2 hrs. Explore how outdoor learning can be a powerful vehicle for learning about sustainability and global education. Take part in a variety of outdoor-based activities and ideas for taking global learning outside. Useful for those with forest school /outdoor classroom. Cost; £350 ecredits per school. Price on application for a cluster of schools

Plants for learning about distant places & people; 2 hrs. Explore how we can use plants to raise development issues and to enrich teaching and global learning. This course demonstrates how outdoor learning and plants can be powerful vehicles for learning about sustainability and global education. Country focus available on request. Cost; £350 ecredits per school. Price on application for a cluster of schools
